NOTICE.
SOMETHING NEW.
Japanese Pea.
On receipt of 50 cents, I will send to any address, prepaid, a package of these Peas, with full directions for planting. They grow like a bushy tree, four to six feet high, and each tree will produce at least a peck to a half bushel of peas. They are good for table use, and fine for stock. Will grow on any and all kinds of land. Send in your order early—only have a few packages for sale. Address,
L. L. OSMENT,
Cleveland, Tenn.

We have cultivated the Japanese Pea the past year, on a small scale, and are convinced they are a perfect success. Their yield was enormous. For the table and for stock they are unsurpassed by any other pea. They grow well on thin land, and are bound to be a No. 1 fertilizer.

A New Hotel.
We learn that Mr. N. Elfer, of this city, proposes to open, in about two weeks, a first class hotel at Bean's Station, to be conducted on the regular European style, for the benefit of persons visiting the springs in that neighborhood. He has leased the hotel at Bean's Station for five years, and is having it thoroughly repaired, refitted and furnished, and will not doubt run a first class establishment. He will run a hack every two hours from his hotel to the spring belonging to the place, and to Tate's Springs, one mile distant, and will convey his patrons three or four times a day there and back free of charge. Elfer knows how to run such establishments, and we predict that he will make it a success.

Local Miscellany.
Two men met at the Atkin House the other day, and, thinking they were old friends, cordially shook hands. They were not long, however, in finding out that neither knew the other. A repetition of the old story of the Dutchman and Irishman on the bridge, which ends, "And faith and it is nather one of us."

The coolest man of the night is he who stopped a train not many nights since by swinging a lamp across the track, and taking out some change, coolly asked the engineer to bring him down some "fine cut" on his return trip. The engineer and fireman both belonging to the church, they failed to do the subject justice.

Several juveniles enjoyed a swim in First Creek, below Main street bridge, yesterday evening. We hardly think, however, that it is exactly according to law for a boy to expose his person in that way so near a public highway.

A clairvoyant trio, two women and a man, have been traveling through these parts, pretending to cure the epileptic by the "laying on of hands." They practiced on many in a certain neighborhood, not long since, and the firm has ever since been dissolved.

It being the first of the month yesterday—at least the first day on which any business could be transacted—every other man you would meet in the street had a pocket full of bills, but very few had money if you had the bills.

New Court House at Athens.
The contract for building the new Court House at Athens, Tenn., was awarded to W. A. Cleage, of that place, for the sum of \$22,600. He proposes to push forward the work as speedily as possible.

Fifty Dollars Reward.
Lost on Tuesday, the 27th of May, on the Eastern bound train between Chattanooga and Bristol, a small morocco valise, with strap across around the neck. It will give Fifty Dollars for the delivery of the same to Knoxville, Tenn., or for any information leading to its discovery. Conductors and baggage masters will please keep a lookout for any thing answering to this description. The contents of said valise was mostly notes and receipts for notes (given out for collection), all payable to W. W. Dougherty, Secretary of the American Lightning Rod Company; about thirty thousand dollars of notes, receipts and other valuable papers, (and some money); and I hereby notify all persons not to buy or pay any such notes, unless satisfactory evidence is given that the holder of said note is my authorized agent.

G. W. DOUGHERTY.
P. S. It is not reasonable to suppose, in the nineteenth century, here in this land of Bibles and Sunday schools, that any one would have taken said valise with any dishonest intention, whatever, and as I have the utmost confidence in the integrity of all mankind, and especially the traveling community, I therefore banish all such ideas. But should some poor, unlucky fellow attempt the collection of said notes, I will add the following explanations for his benefit: All notes marked G. D., are good; but those marked G. D., but S., are "good," BUT SLOW. Some are marked, "SLOW," while a few others are marked (by the collector), D. S., which means, D—SLOW. Still a few others (especially from Arkansas) are marked on the margin with a small G. A. X. ROOSTER, which signifies that the fellow who "takes 'em" had better approach very cautiously, with a Spencer rifle slung around his neck, and by no means allow his way of retreat to be closed. Any other information necessary will (by enclosing stamp) be gratuitously furnished.

City Free Schools.
The following shows the number of scholars enrolled and their average attendance during the past month, the Superintendent, Mr. A. Baird, kindly assisting us in getting up the report:

No. 1—Enrolled, 99	Av. Attendance, 66
No. 2 " " 37	" " 32
No. 3 " " 67	" " 50
No. 4 " " 60	" " 55
No. 5 " " 60	" " 52
No. 6 " " 50	" " 41
No. 7 " " 55	" " 48
No. 8 " " 35	" " 26
No. 9 " " 69	" " 64
No. 10 " " 65	" " 61
No. 11 " " 51	" " 49
No. 12 " " 54	" " 40
No. 13 " " 129	" " 85
No. 15 " " 119	" " 83
Total, " " 981	" " 791

There is but little difference in the attendance of the past month and the month of April, the number enrolled on that month being 975 scholars, and the average attendance 802. The session will close next Friday evening, and will not open for the benefit of persons visiting the springs in that neighborhood. We understand that Mr. Kimball will have some kind of examination or exhibition in her department next Friday, afternoon, to which the parents and friends of the children are invited.

New Advertisements.
Under this head we would call attention to the card of Mr. Ed. R. Hayes, who offers a new sewing machine to the Knoxville ladies, which, he says, is without a rival in many respects. But he does not want any one to take his word for it, but to call at his store, on Market Square, and examine the machine.

The "Vexed Question."
The Board of Assessors for Knox county met yesterday morning and organized by calling J. W. Fowler, Esq., to the chair, and the election of J. T. Doyle, Esq., as Secretary. The object of the meeting was merely to comply with the requirements of the law, and the first motion entertained by the chairman was one to adjourn until the fifth of July next, no one being able to explain the object of the meeting.

CHRONICLE STEAM JOB OFFICE.
A New and Complete Bindery to be Added.
We have made arrangements to add to our Job Office a new and complete bindery, ruling machine and everything needed to do first-class work of that kind.

Our Job Office is now filled with newer and better material than any in East Tennessee. In a short time we will have a bindery in operation where blank books, ruled to order, of any grade can be furnished. Those who want work of this kind will do well to wait for our new material. We have just completed, for several Colleges in East Tennessee, catalogues and programmes of superior style. We invite inspection to our specimen work which is as good as any done here or elsewhere.

COMMERCIAL.
KNOXVILLE WHOLESALE MARKETS.
CHRONICLE OFFICE, KNOXVILLE, TENN., May 27, 1873.

Grain and Produce.
There is no change to note in the grain market, but few transactions had during the past week, at quotations given below. Occasionally a small lot is purchased for milling purposes at a small advance on the figures given below, but what for shipping purposes will not bring higher figures.

The flour market continues easy, the market being well stocked and prices are ranging low. The market is firm, and corn is in moderate demand at figures given below.

Owing to the Atlanta convention, there was a small rise in the egg market during the past week, but at present we quote them again at the old figures.

The bacon trade is rather dull at quotations, the market being well stocked.

GRASS SEED.—Western quotations in grass seed show a downward tendency, but with present shipping facilities the market here is likely to remain at present figures.

The following are the quotations of leading articles:

Live Stock Market.
[These reports are made up from actual sales, and the readers of the CHRONICLE may rely upon their correctness.]

BEEF CATTLE.
The receipts of cattle have been falling off. Cattle are in good demand, especially for butchering cattle. A few car loads of cattle were shipped from this point last week, and the shipping season is about over and we think that there will be no more shipments of cattle from this point at next week. Prices remain about the same as last week.

SHIPPING CATTLE.
Demand fair. No. 1 fat, smooth steers weighing from 1,000 to 1,500 pounds, 4c/4.5c; smooth fat heifers, cows and steers weighing from 800 to 1,000, 3c/4c.

SHOATS.
SHEEP.
The demand good for No. 1, 3c/3.5c. Fat lambs are wanted and will bring good prices.

DRUGS.
Trade in drugs is pretty well sustained; much better than could be hoped in view of the discouraging reports of the crops through the country. We trust many of the reported failures are exaggerated. Prices are about as reported last week. Turpentine continues firm at 7c.

Dry Goods.
The trade in dry goods and general merchandise during the past week has been as good as usual at this season of the year. The present week opens out rather dull, but moderate trade is expected. There has been no further decline in fancy printings 3-4 sheeting, and we continue to quote as follows:
